[How It Works](#)

Ingersoll Servicing

Your Ingersoll watch requires servicing in (London) as its internal components naturally wear out over time. The drying out of oils within the watch can lead to potential damage to the entire mechanism, incurring significant repair costs.

Ingersoll Repair Services

Our knowledgeable experts proficiently handle various issues with both older and newer Ingersoll watches. Services offered include watch glass replacement, hand restoration, and complete overhauls. With swift turnaround times for Ingersoll repairs in (London), your valuable timepiece will regain its pristine appearance and functionality.

Ingersoll Watch Repair Coverage

Our Ingersoll watch repair services near (London) encompass all popular models, such as The Armstrong, The Herald, The Challenger, and The Regent (among others). Our staff is adept at repairing both current and discontinued models to restore them to full working order, provided replacement parts are available.

Battery Replacement and Maintenance

Does your Ingersoll watch need a new battery? Our efficient battery replacement service ensures that your watch runs smoothly without interruptions. We use high-quality batteries that guarantee durability and optimal performance. During the process, our technicians also inspect the watch for any underlying issues, providing preventive care. Trust us to bring your Ingersoll watch back to life with precision and expertise.

Dial and Crystal Restoration

It's possible that both the aesthetic beauty and readability of your Ingersoll watch would suffer from a scratched or damaged dial. Our restoration service for your dial and crystal addresses discoloration, cracking, and other scratches. Crystals are replaced with high-grade materials, while the dial will be restored to its original form. Let us enhance the beauty and clarity of your Ingersoll watch for it to appear as beautiful on the day of purchase.

THE HISTORY OF INGERSOLL WATCHES

Ingersoll watches, founded in 1892 by Robert and Charles Ingersoll in the United States, are renowned for their affordability and reliability. The brand gained fame with the introduction of the “Dollar Watch,” which was a revolutionary timepiece accessible to the masses. Over the decades, Ingersoll expanded its portfolio to include sophisticated mechanical and quartz watches, earning a reputation for quality craftsmanship. Today, the brand is celebrated worldwide for its blend of classic design and modern innovation, catering to watch enthusiasts of all types.

Strap and Bracelet Repairs

We also repair and replace your Ingersoll strap, be it a leather strap, metal bracelet, or synthetic band. We mend broken clasps, adjust strap sizes, and replace worn-out bands with new, high-quality ones. Our goal is for your watch to feel comfortable and stylish. Go see us at our London office for all your strap and bracelet repair services.

Complete Overhaul for Ingersoll Watches

For watches that require detailed attention, our complete overhaul service is the perfect solution. This process involves cleaning, lubrication, and recalibration of all internal components to ensure seamless performance. Our experts meticulously reassemble your Ingersoll watch, conducting thorough testing to guarantee its functionality. With our complete overhaul, your watch will function like new, providing years of reliable service.

Water Resistance Testing and Sealing

Our professional water-resistance testing and sealing service prevents your Ingersoll watch from water damage. With time, seals and gaskets wear out, and consequently, the timepiece's water-resistance is lost. We examine and replace these components to ensure that your watch remains waterproof. If you wear your watch every day or only on special occasions, our service gives your valuable timepiece additional protection.
